

2022 DOE CSGF Fellows' Poster Session

Tuesday, July 19, 5:00 - 6:00 p.m.

Wednesday, July 20, 4:00 - 6:00 p.m.

- Poster Setup – Your assigned space will be labeled with your name and poster number. Note your assigned date/time (<https://www.krellinst.org/csgf/conf/2022/fellows-poster-session-abstracts>) and plan to hang your poster accordingly:
 - Tuesday, July 19 (third-year fellows) set up from 3:45 to 5:00 p.m.
 - Wednesday, July 20 (first- and second-year fellows) set up from 2:45 to 4:00 p.m.
- You will share one side of the poster frame with another presenter, so design your poster to be **smaller** than 4'x4' (ideally 42"x42" maximum).
- As a reminder, your professional, single-panel poster should pertain to fellowship-supported work and, if possible at this stage in your fellowship, speak to the role of high-performance computing in your research.
- **You are required to be at your poster for an assigned time period.** The schedule will be posted online in the weeks prior to the program review.
- Your poster should include your year (first, second or third) in the fellowship.

Helpful Tips to Prepare for Poster Session

- Do not assume that a poster you have used at a professional society or group meeting will be effective at the DOE CSGF program review.
- Organize your presentation to communicate a few significant points focusing on areas of mutual interest and expertise. Avoid discipline-specific acronyms.
- Understand the limitations of the presentation format. Graphics should be simple and easy to understand.
- To attract viewers, poster titles need to be legible from four feet away.
- Posters should include your ideas in outline form and entice the visitor to engage in conversation.
- Organize your material in columns so that people do not have to go from side to side to read the poster.
- Be sure that you are available to discuss your work. Adhere to your assigned presentation time.
- Business cards are a great tool for making connections. You should have some on hand to distribute and plan to collect cards from interested visitors.
- Everyone who stops by your poster should be greeted and offered the opportunity to ask a question or two. Extended and detailed technical discussions should be scheduled for another time and a different venue.
