

# 2022 DOE NNSA SSGF & LRGF Fellows' Poster Session

## Wednesday, June 22, 4:00-5:30 p.m.

---

- **Poster Setup – You will have time to hang your poster on Wednesday, June 22 from 2:15-3:00 p.m.** Your assigned space will include a sign with the SSGF or LRGF logo, your name and poster number.
- You will share one side of the poster frame with another presenter, so design your poster to be **smaller** than 4'x4' (ideally 42"x42" maximum).
- As a reminder, your professional, single-panel poster should pertain to fellowship-supported work.
- **You are required to be at your poster for an assigned time period.** The schedule will be posted online in the weeks prior to the program review.
- Your poster should include your year (first, second or third) in the fellowship.

### Helpful Tips to Prepare for Poster Session

- Do not assume that a poster you have used at a professional society or a group meeting will be effective at the SSGF and LRGF program review where attendees represent several areas of stewardship science.
- Organize your presentation to communicate a few significant points focusing on areas of mutual interest and expertise. Avoid discipline-specific acronyms.
- Understand the limitations of the presentation format. Graphics should be simple and easy to understand.
- To attract viewers, poster titles need to be legible from four feet away.
- Posters should include your ideas in outline form and entice the visitor to engage in conversation.
- Organize your material in columns so that people do not have to go from side to side to read the poster.
- Be sure that you are available to discuss your work. Adhere to your assigned presentation time.
- Business cards are a great tool for making connections. You should have some on hand to distribute and plan to collect cards from interested visitors.
- Everyone who stops by your poster should be greeted and offered the opportunity to ask a question or two. Extended and detailed technical discussions should be scheduled for another time and a different venue.
